An Employee Owned Company

FOR IMMEDIATE RELEASE

DVL Group, Inc. Receives Highwire's Gold Safety Award

Bristol, Pa. — April 3, 2025 — DVL Group, Inc., an employee owned data center solutions company, has been recognized by Highwire, a Contractor Success platform for builders and owners of capital projects, as one of its Safest Contractors. The prestigious Gold Safety Award is presented to companies who score between 85-94 on the Safety Assessment administered by Highwire. Since 2020, DVL has achieved this status four times.

"Management systems are critical to any company's ability to deliver successful outcomes and, most importantly, to keep their employees safe. DVL has done a remarkable job implementing a strong safety management system resulting in exceptional safety performance and results," says David Tibbetts, CSP, Highwire's Chief Safety Officer.

Highwire's Safety Assessment reviews a company's historic and current safety performance. The program provides a thorough, objective, and consistent evaluation of company performance so clients and contractors can identify, monitor, and mitigate risks more effectively. The results provide a strong indicator of how a contractor values safety and serves as a reliable predictor of future performance.

About DVL Group, Inc.

DVL Group has been perfecting the science of data center infrastructure implementation for more than 40 years. By leveraging their robust offerings and far-reaching expertise, their teams across the country can better provide solutions for critical environments, from the edge to the largest data halls. DVL is a 165+ person employee-owned company headquartered in the Philadelphia metro area, with offices in Albuquerque, N.M., Denver, Colo., Harrisburg, Pa., and Salt Lake City, Utah. For seven consecutive years, since 2018, DVL has been certified as a great workplace by independent analysts at the Great Place to Work® Institute and was named *ESOP Company of the Year* in 2018, 2021, and 2023 by the ESOP Association's PA/DE Chapter.

About Highwire

Highwire is the Contractor Success Platform for asset owners, general contractors, and facilities managers. The world's most admired organizations — including Skanska, Merck, and Bond Brothers — use Highwire to ensure their contractors and subcontractors deliver great work on budget and on schedule by collaborating with them to dynamically mitigate safety, financial, quality, and sustainability risks during capital projects and facilities maintenance.
